

## Artisan Poco - Revolutionary Collagen Manipulation

Discover the Artisan Poco, the pinnacle of cutting-edge High Frequency Microcurrent (HFMC) technology. Designed to deliver unparalleled results in collagen restructuring and skin transformation, this compact device achieves powerful outcomes typically associated with much larger equipment.

### What makes Artisan Poco standout?

- **Precision Aesthetic Improvements:** Reduces skin volume by **7-10% in targeted areas**, delivering visible changes that include:
    - A **3-4 inch waist reduction**.
    - A **5-7 year rejuvenation** in facial appearance for clients over 50.
    - 1 inch butt and breast lifts.
    - Male gynecomastia reduction and enhanced lip definition.
  - **Versatile Skin Solutions:** Effectively treats **hypertrophic scars** and minimizes **stretch marks**, offering comprehensive skin care solutions.
  - **Collagen Enhancement:** Stimulates deep collagen synthesis, reshaping and rejuvenating skin for a youthful and sculpted appearance.
- 

### Experience the Future of Beauty Technology - Compact and Portable Without Compromise

The Artisan Poco combines practicality and power, making it ideal for professionals on the move or those with limited workspace. Despite its small size, it delivers the same output potential as larger Artisan models, ensuring no compromise in treatment quality.

### Why Choose Artisan Poco?

- **Ultimate Versatility:** A solution for body contouring, facial rejuvenation, and scar reduction all in one device.
  - **Compact Design:** Lightweight and travel-friendly, perfect for mobile professionals or space-conscious setups.
  - **Impressive Results:** Helps clients achieve transformative aesthetic goals with precision and reliability.
- 

**Ready to transform your practice?** Learn more about the Artisan Poco and its groundbreaking capabilities today!
